

Everything you need in one package to install your own strip curtain door and save money!

ORDERING INFORMATION

Every strip curtain door comes complete with PVC strips and universal hardware for mounting strip curtain. Simple-to-follow installation instructions are included in every package.

- Determine inside width and height of door opening.
NOTE: If mounting on door above lintel, measure from floor to mounting height.
- Select type of PVC material required: STANDARD or LOWTEMP.
Standard recommended for temperatures from -23°C to 66°C.
Low Temp. recommended for interior use only for temperatures from -40°C to 66°C.
- Select from the standard sizes listed in the chart below.
NOTE: If required size is not available, order the next largest size. Installation instructions describe how simple trimming can custom fit almost any door opening.
- Special size doors and hanging applications are available upon request.
- For overhead doors, please call one of our sales representatives for assistance.

Every strip curtain door comes complete with PVC strips and universal hardware for door or wall mounting. Simple-to-follow installation instructions included in every package.

INTERIOR DOORS

Save energy costs

- The optimal solution to open door heat/cooling loss

Reduce noise pollution

- Provides the ideal acoustical barrier around noisy equipment

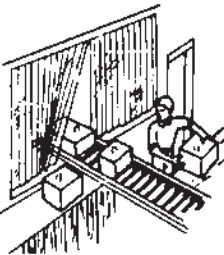

Provide extra safe passage

- People can see and be seen so there is less chance of accidents

Control smoke, dust and sprays

- Strip curtains can control in-plant contaminants to improve employee environment

CONVEYORS

DOCKS

Low maintenance

- Clear flexible vinyl resists stretching and stands up to abrasion
- All aluminum hardware is used for maximum durability
- May be quickly and easily cleaned with detergents or cleansing agents that are free from abrasives
- Deep stains and ingrained dirt can be removed by carefully applying ethanol

IN-STOCK DELIVERY

We have the strip curtain package you need, in-stock, ready to be delivered to your door.

EASY TO ORDER

It is easy to order the strip curtain that fits your door exactly because seven standard sizes can be made to fit 95% of most door openings. Special sizes are available.

STANDARD DOOR SIZES

Order No. Standard	Order No. Low Temp.	Strip Dimensions	Door Opening W' x H'	Wt. lbs.

BUILD YOUR OWN CROWD CONTROL BARRIERS

- Slow retracting tape cassette insures tape will retract safely
- Specially designed locking mechanism prevents accidental release
- Tape length: 7'

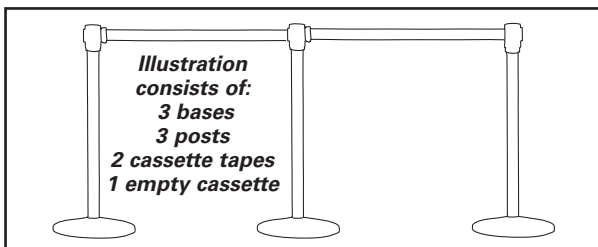

FREE-STANDING CROWD CONTROL BARRIERS:

- 4-way connection permits all posts to receive up to three tapes from any direction
- Receiver post without tape cassette for use at the end of a line of posts
- Assembled height: 35"
- Recommended post spacing: 6'6"

TO BUILD YOUR OWN FREE-STANDING CROWD CONTROL BARRIER FOLLOW THESE INSTRUCTIONS:

1. Select a post style.
2. Select a base style. You will need one base for every post ordered
3. Select a Tape Cassette. The quantity required will depend on your setup.
4. Order an Empty Cassette for any posts that will be used as a receiver or a wall receiver if mounting to a wall.

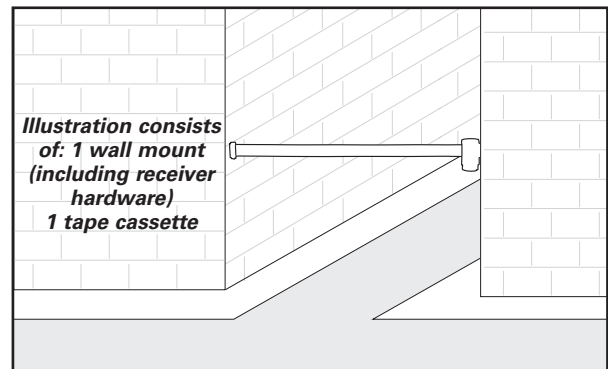

WALL MOUNT BARRIERS:

- Ideal where floor space is essential
- Wall mount barrier includes one wall receiver and hardware
- Dimensions: 3 5/8" L x 3" W x 5 5/8" H

TO BUILD YOUR OWN WALL MOUNT BARRIER FOLLOW THESE INSTRUCTIONS:

1. Select a Wall Mount style. You only need one Wall Mount since the receiver for the other side is included.
2. Select a Tape Cassette.

STANCHIONS

- Effective for crowd control, defining walkways, and brings awareness to potential hazards
- Use indoors/outdoors
- Suitable for manufacturing facilities, schools, churches, restaurants, military bases, office buildings, events, parks and much more
- Made of high density polyethylene containing UV inhibitors
- Will not rust and resists fading
- Recyclable
- Base can be filled with sand for additional stability
- Medium and heavy-duty options available
- **Medium-duty:** The chain can be attached on the enclosed C-hook or be ran in a continuous length through the top of the stanchion
- **Heavy-duty:** Attach the chain to the stanchion with the enclosed C-hook and base can be attached to floor

Mirrors

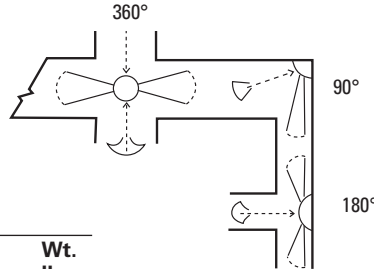

Use furniture polish to clean mirrors. Glass cleaner will damage surface.

DOME MIRRORS

Maximize safety at a glance. Safety mirrors in quarter, half or full dome reduce the chances of accidents due to blind corners in the plant or warehouse. Constructed of heavy-duty acrylic for durability. All mirrors have a black protective edge.

Ideal Locations:

- 360° 4-way intersections
- 180° "T" intersections
- 90° Corner intersections

HAZARD WARNING TAPE

NON-LAMINATED

- PVC tape will quickly bring attention to any workplace hazard
- Made from a 6-mil conformable vinyl film with a rubber adhesive system to adhere to most any clean, dry surface
- Smooth semi-matte surface
- Ideal for floors, walls, pipes and equipment
- 108' per roll

LAMINATED

- PVC tape with a durable, clear laminating film over top
- Smooth gloss finish will resist wear and is easily cleaned
- Over lamination improves tape's ability to withstand heavy abrasion
- 108' per roll

RECOMMENDED GUIDELINES

Red/White: Fire Protection Equipment

Yellow/Black: Physical Hazards

Black/White: Traffic and Housekeeping

Green/White: Safety and First Aid Equipment

FLOOR TAPE APPLICATORS

- Designed for applying tape accurately and securely to floors and ground in straight line only
- Use with tape rolls up to 4" diameter

INCOM

Order No.	Mfg. No.	Max. Roll Diameter"	Overall Height"
SED019	WTD-200	4	39

COLOURED VINYL ARROWS & DOTS

- Great choice for marking direction of travel or demarcation of hazards
- Commonly used for production work flow, inventory management and pedestrian directional aids
- Arrows and dots are all made from a durable solid coloured vinyl so there is no print to wear off
- Adhesive backing
- Custom sizes and colours available upon request

PREMIUM GRADE ANTI-SKID TAPE & CLEATS

- Constructed from a thick PVC base layer impregnated with an aggressive 60-grit mineral abrasive compound
- Backing has an aggressive acrylic adhesive system for longevity
- Forms a strong, water-proof bond to most any clean, dry surface while still being temporarily repositionable during the application process
- Great choice for both indoor and outdoor environments
- Offers highest wear resistance and weather ability
- Excellent chemical and oil resistance for a wide variety of applications
- Recommended for long term and OEM applications
- Certified by the National Flooring Safety Institute 101-A "High Traction", and meets or exceeds OSHA 1910.24 and 1910.26
- RoHS compliant and lead free
- 60' roll

ENGINEER GRADE REFLECTIVE TAPE

- Offer vibrant daytime visibility with reflective properties for night time use
- Rated for use outdoors for a 7-year life span
- Aggressive adhesive that will adhere to almost any clean, dry, smooth surface
- Hazard striped products have a protective lamination to ensure the printed stripe will not wear off
- Comes with removable release liner
- Not intended for flexible vehicle graphics
- 30' roll

PREMIUM GRADE COLOURED ANTI-SKID TAPE

- Effective way to offer visual warning of a slip and fall hazard
- Surface is an aggressive mineral abrasive compound on a thick PVC liner
- Adheres to most any clean, dry surface with an acrylic adhesive system
- Tape and adhesive are water, chemical and oil resistant for use in both indoor and outdoor applications
- Effective anti-slip protection on stair nosing
- Tape meets NFSI 101-A "High Traction" and meets or exceeds OSHA 1910.24 and 1910.26
- 60' roll

Tape & Markers

3M™ SAFETY-WALK™ SLIP RESISTANT TAPE

The easy, economical way to help prevent slips and falls, and help meet OSHA and ADA requirements.

GENERAL PURPOSE

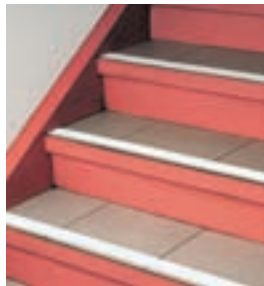

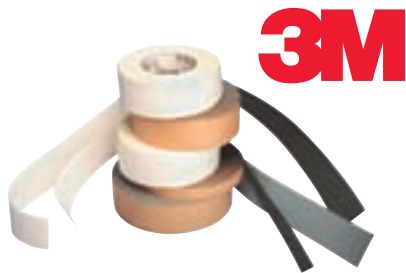

- Mineral-coated, slip-resistant material features a highly durable surface
- Low-profile design reduces trip hazard

CONFORMABLE

- High-friction, slip-resistant material has a special aluminum backing that conforms around corners and adheres to irregular surfaces

MEDIUM RESILIENT

- Resilient, non-mineral, slip-resistant material
- Soft surface is suitable for bare feet

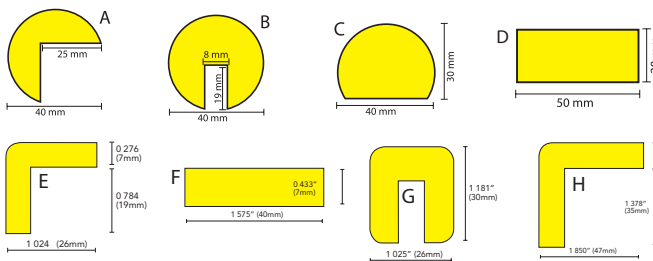

Order No.	Mfg. No.	Colour	Description	Dim. W x L

SOFT EDGE FLEXIBLE WARNING & PROTECTION SYSTEMS

- Tough, flexible polyurethane foam extrusions reduce the risk of personnel injury at high risk corners
- When applied to machinery, furnishings and walls, *Soft Edge* prevents impact damages by absorbing even the hardest of impacts
- Highly visible black and yellow markings offer permanent warning in dangerous areas
- Simple "peel-away" adhesive installation on grease-free surfaces
- Excellent temperature range from -40°C to 100°C

Knuffi

CORNER ACCESSORIES

Makes a neat corner where two foam bumper guards protection profiles meet.

RECESSED CONE

- One-piece wide body design and construction
- Easier stacking - no pinch points with collars
- Increased durability for reflective sheeting; recessed collars resist direct wear
- Protected reflective translates into longer service life lowering overall usage costs
- 28" cone with 6" reflective collar on top and 4" reflective collar on bottom
- Weight: 7 lbs.
- Meets MUTCD standards

Order No. SAQ093
Mfg. No. 03-500-100R

PACK & POP™ COLLAPSIBLE CONES

- Constructed of orange waterproof nylon
- Internal light has two settings: steady burn and flashing
- Cone light endures 100000 flashes or 36 hours of steady burn
- Collapses flat for easy storage
- Replaceable lithium battery
- Sold in packs of four with one carrying bag included
- Meets MUTCD standards

Order No.	Mfg. No.	Height"

TRAFFIC CONE HOLDERS

- Bolts to vehicle bumper
- Conserves valuable inside storage space
- Holds 18" and 28" cones only

Order No. SB832 Mfg. No. 03-500-99

TENSACONE TOPPERS

- Transforms your line of traffic cones into a cost effective temporary barrier system
- Ideal for use in health and safety, roadside maintenance and engineering applications, or anywhere where a temporary barrier is required
- For use with a base weight and fits most standard traffic cones
- Fits securely to the top of the cone; retracting heavy-duty belt is connected to the next cone providing up to 12' of barrier
- More effective at restricting access than cones alone
- Faster and easier to use than string or traffic tape
- Lighter and easier to set up than rigid barriers
- Less cones are required, saving space and money
- 13' red and white diagonal stripe belt
- Over 40 colour choices or custom printing options available

Order No.	Mfg. No.	Wt. lbs.
SAQ141	TC114-30-MAX-NO-D3X-C	2

Mfg. No. EN95

PORTABLE INTERLOCKING BARRIERS

- Ideal for directing people in areas where crowd control is required
- Rugged welded steel construction
- Feet are removable so railing will lay flat for shipping and storage
- Includes connectors to attach multiple units together
- Overall dimensions: 102" L x 40" H
- Distance between vertical bars is 7"
- Rail diameter is 1 5/8"
- Weight: 56 lbs.

Order No.	Description
SEE395	Galvanized Finish
SEE396	Safety Yellow Finish

VERSA-GUARD® GATES

- Constructed of steel and aluminum
- Free-standing design allows setting up quickly wherever and whenever they are needed
- Protects workers or customers from injuries
- Collapsed design also allows unit to store easily
- Painted black and yellow to provide high visibility

PLASTX™ A-FRAME BARRICADE

- Ideal as a temporary or long term solution to cordon off areas
- Patented Plastx™ will not rot, rust, crack or peel and is chemical resistant
- ADA compliant to MUTCD standards
- For a complete unit order two legs and one board, add a second board for increased stability

PLASTX™ A-FRAME BARRICADE LEG

- Mounting holes will accommodate all manufactured boards
- Holds up to two 8' L x 2" W x 8" H boards
- 26" L x 2" W x 42" H
- Available in white or orange

PLASTX™ A-FRAME BARRICADE T-BOARD

- 7 years UV package protects against deterioration
- Made of extruded grade PVC
- Available with hi-intensity stripes or engineer grade stripes
- 8' L x 2" W x 8" H
- Available in black and orange stripes or white and orange stripes

PORTABLE MOBILE BARRIERS

Close off an area for maintenance or to isolate a potential safety hazard. Mobile, easy to transport, set up, take down and efficient to store.

- For indoor use
- Two 5" non-marking wheels
- Four locking straps to secure barrier in closed position
- Flexible, can be set straight, curved or in a circle
- Easy to store
- Open: 13' L x 1" W x 40" H
- Closed: 2' L x 13" W x 40" H
- Weight: 32 lbs.
- ANSI approved colour and graphics

Order No. SAJ714
Mfg. No. 9S11

EZ-SPAN™ EXPANDABLE PLASTIC BARRICADES

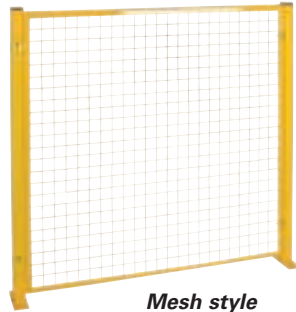

- Made of durable recyclable polypropylene
- Expandable barricade provides an attractive, visible warning barrier
- Rugged enough for outdoor use and it is weatherproof, maintenance free and contains no parts that will rust or corrode
- Expands up to 11 1/2', folds down to a compact 16 1/2" x 3' high
- Plastic feet will not scratch or mar expensive floors
- Weighs only 15 lbs, lightweight enough to be carried and deployed by one person
- For use in lobbies or any public area during maintenance or construction

Order No. SAQ195

PERIMETER GUARDS

- Create your own barrier guards with two styles to choose from: 2" x 2" welded wire mesh or 2" square tube
- Both feature a unique 49 1/2" overall height, and are easily installed
- Posts are constructed of 2" square tube with 5/16" base plate with holes for anchoring to floor
- Hardware to attach add-on sections is included
- Safety yellow or Kleton blue finish

Speed Bumps

SPEED BUMPS

- 1-piece lightweight 100% recycled rubber
- Resistant to corrosion, moisture, oil and weather variations
- Perfect for speed reduction in parking lots, school zones and areas with heavy pedestrian traffic
- Black with bright yellow reflective stripes for maximum daytime visibility
- Reflectors offer maximum night time visibility
- Easily installed with 14" rebar spike for permanent or temporary installation
- 11" W x 2 1/4" H

Order No.	Length	Spikes Required	Weight lbs.

SPEED BUMPS

- Lightweight, durable speed bump is designed to help keep speed levels down
- Made with 100% recycled plastic, they are impervious to road chemicals and corrosion
- Molded-in colour, which eliminates the need for painting traffic marks
- Can be installed side by side to create lengths of 6, 9, 12 feet or more
- Dirt is easily removed with either soap and water or a commercial solvent
- Lightweight; 3-bolt anchoring system facilitates relocation
- Hardware included
- Safety yellow

SPECIFICATIONS:

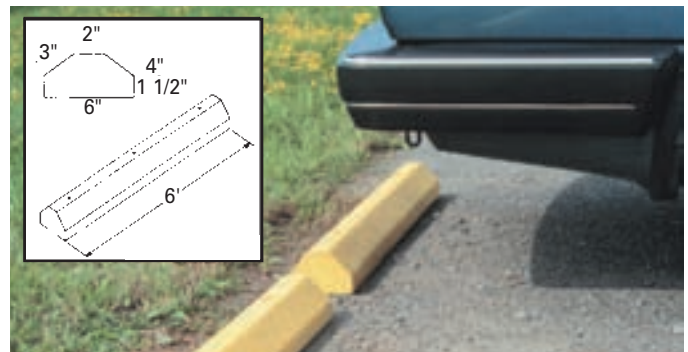

Dimensions: 36" L x 10 1/2" W x 2" H
 Securing Holes: Countersunk 1/2" diameter

CAR STOPS

- Durable, bring order to parking lots
- Solid colouring throughout means they never need painting and will retain an attractive appearance
- Made with 100% recycled plastic, they are protected against damages brought on by road chemicals, deterioration and corrosion, eliminating the danger of exposed reinforcing rods seen in traditional concrete car stops
- Predrilled and can be installed by one person
- Hardware sold separately
- 6' length available in safety yellow, handicap blue and cement grey
- 4' length available in safety yellow only

MODULAR CABLE & HOSE PROTECTION SYSTEMS

FEATURES:

- Polyurethane construction, non-conductive material
- 36" length per lineal protector
- Five bar tread plate surface
- Safety warning symbols molded into protector
- Modular interlocking design
- Recessed carrying handle
- Patented T-Connectors to extend to any length
- Universal safety colours

BENEFITS:

- Weather and abrasion resistant; high load-bearing capacity
- Insulates electrical cables from human contact
- Increases traction
- Lightweight; easy to transport, set-up, breakdown, and store; multi-length applications
- Allows for moving with ease
- High visibility

High-Visibility Safety Apparel

WHAT IS THE CSA STANDARD FOR HIGH VISIBILITY SAFETY APPAREL (HVSA)?

CSA Standard Z96-09 is the standard for HVSA. It provides a standard for the elements that go in to the construction of an HVSA garment, which includes two types of materials: fluorescent background materials for daytime visibility, and retro-reflective tape for nighttime visibility. CSA also provides a standard for the design of the garment, according to the three different classes.

BACKGROUND MATERIAL

Colours for background material can be fluorescent yellow-green, fluorescent orange-red or fluorescent red. These change in FR garments, which cannot hold fluorescent dyes because of the materials used. In these cases the material must be bright yellow-green or bright orange only. The requirements can be found in the CSA standard table 2a for fluorescent materials and table 2b for bright (FR) materials.

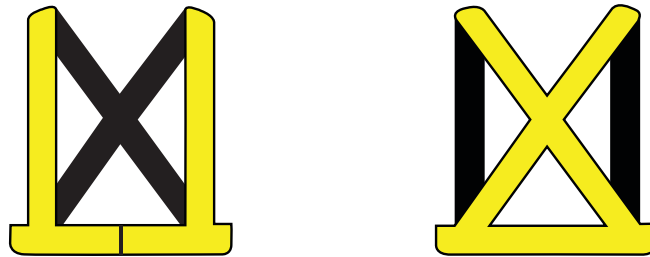

RETRO-REFLECTIVE STRIPE

If the retro-reflective stripe is going to be coloured, it can be fluorescent yellow-green, fluorescent red-orange or fluorescent red. Otherwise, it should be a standard retro-reflective of either white or silver striping. Retro-reflective stripes can either be level 2, level 1, or level FR, depending on the class of the garment required. The minimum performance levels for these stripes can be found in tables 5, 6, and 7 of the CSA standard Z96-09.

DESIGN

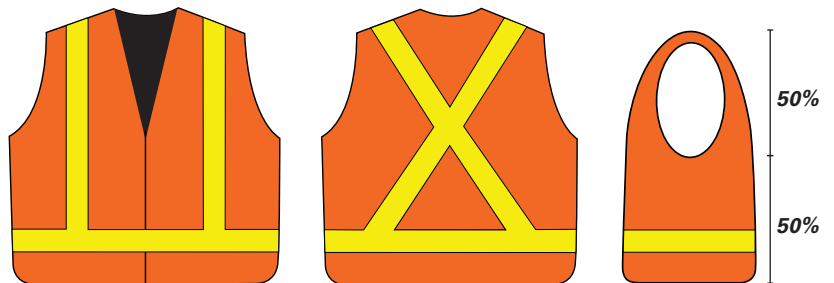

Class 1

A Class 1 garment provides minimal visibility. The retro-reflective material must consist of two vertical stripes on the front, an "X" on the back, and a horizontal band around the waist. The horizontal band may optionally continue between the two vertical stripes on the front. Fluorescent background material is not mandatory on a Class 1 garment

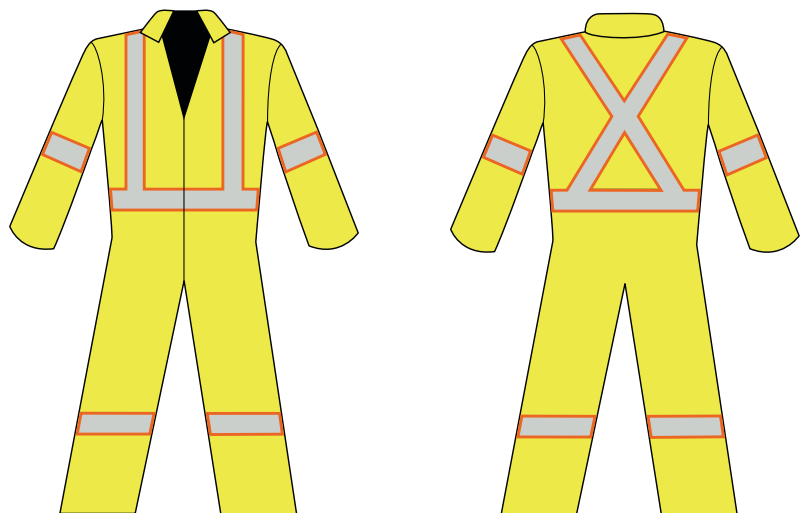

Class 2

A Class 2 garment has the same requirements for retro-reflective tape as a Class 1. A Class 2 garment also provides full coverage of the upper torso with fluorescent background material, including over the shoulders, front, back and sides. Coverage on the side of the torso under the arms must cover at least 50% of the length of the entire garment.

Class 3

A class 3 garment includes all of the same requirements as a Class 2 garment, with the addition of retro-reflective bands on each limb. Additional fluorescent background material is not necessarily required, but will provide greater surface area for improved daytime visibility.

TRAFFIC VESTS

- High-visibility lightweight polyester mesh provides daytime visibility
- 2" yellow reflective stripes
- Bright reflective stripes provide 360° nighttime visibility
- 5-point tear-away features on shoulders, sides and front for easy quick release

WANT TO STAND OUT IN A CROWD?

Customizing a garment or vest to suit your needs will give you a distinctive edge.

Have an idea of what you want? Call us today and we'll work with you to build the garment you have in mind.

Include contrasting fluorescent or non-fluorescent material to make your garment truly unique

Fasten your garment with buttons, zippers, or velcro, whichever you prefer!

Personalize your garment with a company logo or a name badge

Make employee identification simple by including an ID pouch

Attach extra pockets for greater versatility

Add extra reflective material for additional night time visibility

High-Visibility Safety Apparel

GLOWEAR POWER-CAP™

- Two ultra-bright LEDs in the brim, and two additional LEDs concealed under brim (C.U.B. Technology™) deliver hands-free illumination in dark work spaces
- Choose two brim LEDs for illumination up to 50', two C.U.B. LEDs for close-up tasks, or all four for maximum visibility
- On/Off switch located conveniently under brim
- Four long-life lithium batteries (included) provide more than 30 hours of continuous light, and are easily replaceable
- Available with or without GloWear logo
- One size
