

ERGONOMIC FLOORING VS. ERGONOMIC MATTING

ERGONOMIC FLOORING

Ergonomic flooring covers a larger area than standard work station mats and is available for work areas subject to moisture and oily substances. Ergonomic flooring also comes in various solidity levels to accommodate different weight requirements for applications and equipment. Harder flooring can be used when working with heavy materials, thereby allowing employees to use transport devices such as carts and dollies. This reduces heavy lifting and strenuous physical activity. In addition, ergonomic flooring reduces the risk of serious bodily injury due to its inherently softer surface.

Ergonomic flooring comes in various sizes using what Wearwell® calls a "Positive Lock". This refers to a seamless installation that stays intact unless you "unzip" the components. Also, different colours are available to match the look of your work environment. No fasteners or adhesives are used. You simply interconnect the tiles according to your floor plan. Materials can be trimmed and cut to respect the angles of walls, equipment and traffic areas.

Maintenance is simple because tiles can easily be replaced without having to remove giant sections of the flooring. However, not all modular matting can be used for ergonomic flooring. Wearwell® describes the concept of the "Three P's" in regards to installation:

- **"Positive" locking:** These are the only products used. They make for snug seams and do not move around unless taken apart intentionally.
- **"Permanent" locking:** These require adhesives, heat bonding or mechanical fasteners, making repair and reconfiguration very difficult.
- **"Passive" locking:** These have connectors that overlay each other but do not tightly lock together

ERGONOMIC MATTING

Used primarily for work stations and assembly line applications, ergonomic matting is typically a turnkey solution that comes in a variety of materials for application issues such as:

- Comfort
- Slip prevention
- Static discharge
- Weld sparks
- Contamination control
- Flame risk

Because ergonomic matting comes in so many shapes and materials, employees have considerable choices to satisfy their desired comfort level in their respective work areas. The different surfaces available include diamond plate, marbled tile-top, corrugated and pebbled.

Ergonomic matting is usually ready right out of the box and does not require additional preparation. Some products are available in rolls and can be customized in shape, length and width beforehand, so you do not need to make on-the-spot modifications in the workspace.

ERGODECK® ERGONOMIC FLOORING SYSTEMS NO. 560 & NO. 562

- Professional grade 18" x 18" super-sized ergonomic tiles quickly assemble to cover large and custom-sized areas
- The patented LockSafe® system securely connects the tiles for a neat, clean, installation that will withstand heavy use and cart traffic
- The incredibly substantial design creates a floor above the facility floor, covering up imperfections and safety hazards
- ErgoDeck® tiles can be unlocked and repositioned to create a different configuration when work flow changes
- Optional 6" wide safety ramps and corners accommodate carts and have countersunk holes so ErgoDeck® can be attached to the floor
- 7/8" thick
- Designed specifically for heavy cart traffic with load capacity of 64 PSI
- Available in open grid and solid tile designs

ERGODECK® HEAVY-DUTY OPEN GRID NO. 560

- For use in wet (non-greasy) or dry areas where small debris or fluids are present

ERGODECK® HEAVY-DUTY SOLID NO. 562

- For use in dry areas where small parts fall to the floor, or where ease of maintenance is a priority

FREQUENTLY ASKED QUESTIONS:

What if one of my tiles gets damaged?

Simply remove it and replace with a new tile.

How do you connect a ramp to the side of the tile that has interlocks?

Simply cut off the interlocks on the ramp.

What do I need to install ErgoDeck®?

A rubber mallet. Each box of tiles contains installation instructions.

3-YEAR WARRANTY

ERGODECK® W/INTEGRATED NO-SLIP CLEATS NO. 552 & NO. 553

- This non-slip flooring is engineered to deliver exceptional traction in even the most extreme environments
- The patented LockSafe® positive interlocking system delivers secure connections but can be unlocked as needed for replacement or repositioning
- The optional 6" side safety ramps and corners have countersunk holes for semi-permanent installation
- Unmatched slip prevention
- Customize in 3" increments to fit any area or configuration
- Can withstand power-washing and aggressive maintenance
- 100% silicone-free PVC tiles provide maximum durability
- 18" x 18" tiles
- **Open grid:** Recommend usage in wet or dry areas where small debris or fluids are present
- **Solid:** Recommend usage in dry areas

DIAMOND-PLATE SPONGECOTE® NO. 414 & NO. 415

- Our Diamond-Plate products define the market for dry area anti-fatigue matting
- These mats have a Nitricell® sponge base, a unique and resilient nitrile rubber composite that provides unparalleled comfort, resilience and long-term performance
- Designed for optimised worker productivity in heavy-use production and lab areas, the PVC diamond-plate surface resists abrasion and most chemical spills
- Edges safety bevelled
- Available in two distinct versions:

ULTRASOFT DIAMOND-PLATE NO. 414

Ultimate Performance has a double-thick Nitricell® sponge base for a little extra comfort

DIAMOND-PLATE SPONGECOTE NO. 415

Best Performance is a standard 9/16" thick and has been a best seller for over 20 years!

CLEAN ROOM MATS NO. 095

- Traps impurities in areas that require dirt and dust control
- Perfect for outside controlled manufacturing areas, clean rooms, or labs, also keeps dirt from tracking into office areas
- The tacky surface efficiently pulls dirt and dust off shoe soles before it can contaminate a clean or sterile room
- Effective and easy to use, each mat has 30 or 60 layers of tough film once the top layer is contaminated, simply pull it off and discard
- Use on tile, low-profile carpet or concrete surfaces
- Colours: Blue or white
- Sold per case of 4

SANITIZING FOOTBATH MATS NO. 222

- Designed to decontaminate and disinfect footwear, this mat keeps hygienic areas free of debris and germs
- Especially effective in food processing facilities, the mat is simply filled with a diluted chlorine or quaternary solution
- As employees step on the mat, their shoe treads are immersed in the disinfectant solution while the pliable rubber scrapers dislodge contaminants
- For complete decontamination, shoe soles must be immersed for one minute
- Standard mat holds up to 1 gallon
- Tall wall (2 1/2" walls) holds up to 5.5 gallons, the liquid is at least 2" high and can disinfect well past the sole of the shoe or boot

1-YEAR WARRANTY

GRADE A® NO. 482

- Anti-fatigue mat specifically for food production plants
- 100% anti-microbial nitrile rubber withstands animal fats, fish and vegetable oils
- Passes the NSF anti-microbial test ASTM G21-96 (2002)
- Built-in handles
- No areas where food particles can collect
- Substantial underside knobs increase comfort
- Increases traction when greasy and wet
- 1/2" thick
- Colour: Terra Cotta

Built-in Handle

Accepted for use in Canadian food processing facilities

2-YEAR WARRANTY

Solid underside design

Substantial underside knobs are 1/4" high

Hygienic porthole design

NON-CONDUCTIVE CORRUGATED SWITCHBOARD NO. 702 & DIAMOND PLATE SWITCHBOARD NO. 701

- High-performance non-conductive matting conforms to ANSI/ASTM D-178-01 Type II, Class 2
- Designed to protect personnel in areas with dangerous high-voltage equipment, these mats can insulate against as much as 30000 volts of electricity
- Available in two surface designs:
Diamond-plate is easily cleaned
Corrugated for extra traction
- 1/4" thick

Passes U.S. Department of Labour Mine Safety and Health Administration—Title 30, Code of Regulations 18.65 Flammability Rating for products taken into mines.

Type II— Refers to the material compound—a virgin PVC resistant to chemical and other spills, ozone and UV.

Ergonomic Matting

ELECTRICALLY CONDUCTIVE ANTI-FATIGUE NO. 786DP

- A very popular static control solution in manufacturing facilities
- Dramatically reduces the percentage of defective product and employee complaints
- Quickly drains static electricity from workers and effectively protects sensitive equipment and products from damage
- Effectively prevents the incidence of sparks caused by static discharge
- Designed to dramatically reduce fatigue, the Nitricell® sponge base is a nitrile rubber composite designed for comfort and long-term performance
- Available in a diamond-plate surface (RTG = 5×10^5 to 1×10^7 ohms)
- 9/16" thick
- This mat must be grounded and employees must either wear heel grounders or conductive shoes

Protects workers from fatigue & electronic equipment from damage!

STATIC DISSIPATIVE ANTI-FATIGUE NO. 791

QUICKLY DRAINS STATIC ELECTRICITY FROM WORKERS

- This mat has a metal scrim embedded in the vinyl surface to ensure speedy and effective dissipation of static electricity
- The Nitricell® sponge base is a nitrile rubber composite designed for employee comfort and productivity
- Ideal for manufacturing and commercial areas where static electricity can pose a problem, this mat has an RTG = 1×10^7 to 5×10^8 ohms
- It must be grounded and employees must either wear heel grounders (SAL252) or conductive shoes
- 1/2" thick

REQUIRED ACCESSORIES FOR ESD MATTING

15' GROUND CORD NO. 793.15

- Use this cord to connect all ESD tabletop and floor mats to a building ground
- The solderless terminal can be connected to an electrical outlet by using the screw in the outlet cover
- The molded-in snap fastener has an integral one megohm resistor and conforms to 10 mm snaps

Order No. SAJ574

WEARWELL®

CHOOSING THE RIGHT MAT

THERE ARE THREE TYPES OF MATTING TO CONSIDER.
TO SELECT THE RIGHT TYPE FOR YOU, WE RECOMMEND THE FOLLOWING STEPS:

1. Identify the type of area where you wish to install the carpet, taking into account the amount of traffic it will experience. (ex: heavy traffic vs. light traffic)
2. Refer to the collection of products in the following pages and locate the right fit for you. We've categorized each mat to correspond to one of the four traffic categories, colour coded for your convenience
3. Choose a scraper, a wiper/scraper and a wiper mat.
Note: For best results, use three types of mats in the following combination (ex: Upfront Scraper, Super Soaker and Proluxe)

1-SCRAPER

- Exterior usage or between two doors
- Aggressive scraper surface, which will capture the majority of dirt from the soles of shoes
- Does not absorb moisture, which facilitates maintenance

2-WIPER/SCRAPER

- Interior usage or between two doors
- Irregular surface which enables trapping moderate dirt that was not captured at the scraper level
- Moderately retains water and moisture that may later evaporate or be extracted at a later time

3-WIPER

- Interior usage
- Plays a major role in the retention of water and fine dust
- Minimizes the risk of slipping and falling

JA187
UpFront Scraper

SAX726
Eco Plus™

SAX714
Eco Step™

Light Traffic	Light-Medium Traffic	Medium-Heavy Traffic	Heavy Traffic
			
Less than 125 foot traffic per day	Between 125 & 500 foot traffic per day	Up to 1500 foot traffic per day	Over 1500 foot traffic per day
Small business Boutiques Side Entrance Etc.	Office building Small retail store Bank/Postal Service Car Dealership Motel & Inn Etc.	Convenience Store Restaurant Hotel Theatre Museum Convention Centre Etc.	University Airport Hospital Large retail store Shopping Mall School Etc.

DID YOU KNOW?

The proper use of entrance mats is recognized by the Green Building Council of Canada, under LEED® certification system (Leadership in Energy and Environmental Design), visioning a transformed built environment leading to a sustainable future. Some MatTech products can contribute to obtaining two credits:

1 Credit*: "Permanently use the entrance matting system to capture dirt, particles etc. from entering the building at all high volume entrances"

1 Credit**: Use material with recycled content in order that the sum [...] constitutes at least 7.5% of the total value of the material in the project.

For more information, visit the website: www.cagbc.org

*EQ Credit 5 requirements, Green Building Rating System v1.0

**MR Credit 4.1 requirement, Green Building Rating System v1.0

Entrance Matting

HEAVY-DUTY MULTI-GUARD NO. 220

- High performance outdoor entrance mat
- Thousands of scraping fingers effectively remove pounds of dirt from sight and hold it between cleanings
- Works even during the worst weather conditions
- 1/2" overall thickness with safety bevelled edges
- Colour: Black

Uses: Heavily trafficked outdoor entrances

1-YEAR WARRANTY

Exceptional dirt trapping qualities solve the problem of damaging grime & moisture tracking!
